Fighting, Dungeons, Business • The action RPG genre Lannerring : Our action RPG is based on the visual novel genre. There are many action RPG games, but most of them have strict limitations on settings and characters (such as RPG Maker's lazy "game" system) and are often merely a series of stage dungeons. We are well aware of how these games are limited, and we are therefore creating a unique world. We are creating a world where you can freely create your own character in a vast world full of exciting content, and we are creating a setting in which many types of dungeon, character, and contents will be present. We are creating an action RPG where you can enjoy adventure, the elements of which are street action, dungeon exploration, RPG elements such as attack, and business. In doing so, we are creating an action RPG that makes you feel cool, exciting, and more difficult. • Fantasy Action RPG Game : With the action RPG genre, you can select a class and freely combine weapons, armor, and magic. We are creating an action RPG where everything has been meticulously crafted. Even the volume of sound effects has been finely tuned and the scenery has been painstakingly created. Adventure : We are creating an action RPG where the scale has been finely tuned so that even when you take a look at the familiar city streets, you feel like you are "going on a real adventure." We are creating a world where the scale has been finely tuned to have you feel cool. Even the elements of the games will be "cool." RPG elements : We are creating an action RPG that lets you experience the satisfaction of completing dungeons and overcome enemies. • True-to-Life Battle : We are creating an action RPG that lets you experience a true-to-life battle by engaging in a real-time battle with enemies. Your "skill," "Magic," and "instinct" are vitally important, and we have worked hard to create an action RPG in which you can learn and grow as you clear quests. We are creating an action RPG where the "most important" thing is just how you fight. Combat has been carefully tuned and balanced so that the game is easy to play. DUNGEON EXPLORATION : Dungeons We are creating an action RPG in which the scale has been finely tuned so that you can enjoy the feeling of exploring a true-to-life dungeon. We are creating a world that
