What's new in Uncharted Waters Online:

\$200 Trades/Barter I've decided to stop trading on the forums. I started selling and trading on the forums as a way of making some extra money for my crafting obsession. The only thing that I will still trade for is anything I need that is either not craftable or I can't find a way to, or which I don't have the hooves, leather, or experience in making. I prefer that these things be useful ones not a headache to get them and I'm not just hopping along to the market for a quick profit. I won't trade for miscellaneous goods just to check the market or anything. I will continue to sell items through the [/r/uncraftworld/r/uncraftworld_trades/](#) for a list of the items I have for sale as well as their uncrafting details and prices. For example, **Bright Yellow Mane:** Raw leather \$2-6 if any extra work needed to be done to it beyond simple one. **Smooth Black Laced Leather:** Leather, lacing, painting, and sewing. Found pictures on +Tinious. Costs \$10 **Mange to Sully Small Leather:** Leather and molding. Found pictures on Anker's Workshop. Never be quite sure how is has been handled but has been once and I really liked it. Total price for all three are \$8. I'm also interested in bartering/trading for black leather, large dyes, burrs, felts, book yarns, yarns, rocks, fabric, even making the hood. I do have a few tradeable items not listed here, just ask if you would like to know about them. For anyone that wants to start trading, you can message me here or on discord (The same Nickname regardless.) or on the discord text channel. Sorry for the double post but this is one I felt needed mentioning. There seems to be quite a few that I see are leaving reviews for items trying to start a kickstarter. I need to let you know they don't deserve it. The fact of the matter is for 1. the item has at least 3 pictures of how its making 2. the people posting them have a number over 10,000 followers 3. the person I am referring to has over 58,000 followers. Please don't follow such an uncharacteristic example set. I see a couple now but I do

Engage in combat with swords, magic or your bare hands to defeat them. - A story told through graphics and sound: A suspenseful narrative unfolds in an engrossing fantasy world that will fascinate. - Three distinct classes and four different skill types. - The exotic Ice Age is an original setting. You can meet wild beasts, ride on dinosaur-like kounon, travel through snow tunnels, or even pay a visit to frosty far-off lands and meet their inhabitants. - Gorgeous cutscenes make combat more realistic and the adventure more exciting. - You can enter the Steam Workshop to share your creations with other players. This is only the beginning. We're currently working to refine the game and continue development. We hope you'll join us. The woman was mortally wounded at the hand of a creature from a mysterious parallel world. Her fate and the fate of the child are your only means of escape. One way or another, the journey will be deadly. What you don't know is who you can trust. A hidden enemy awaits... House With A Secret A young woman and her son are locked in a house. The boy is bewildered and distressed by the unearthly creatures that move around the house. His mother is mortally wounded. There is no time for questions. You must act. You don't know what awaits outside, but you must be ready for anything. Your combat skills will be of little use. You'll need to explore the house and find a way to escape.
